## **CCTV Camera Usage Policy**

### **Why are Tatsfield Village Hall Management Committee installing CCTV cameras?**

After recent increases in anti-social events and issues with drug taking in the doorways and surrounding areas of Tatsfield Village Hall, The Tatsfield Village Hall Management Committee have come to the decision to install CCTV cameras to ensure the safety of all hall users by monitoring these types of events and to act as a deterrent.

When required, these recorded images will be made available to assist with any Law Enforcement investigations.

### **What is being monitored?**

The Tatsfield Village Hall Management Committee have initially decided to install two CCTV cameras. One camera is installed at the main door at the side of the Village Hall, the second camera is installed at the porch at the front of the Village Hall. This may be expanded at any time.

Both cameras are pointing downwards over the Village Hall doorways, so as not to inadvertently capture passers-by.

### **Storage of images**

All images captured from these cameras is accessible through the manufacturer's app which only the Information Steward will only have access to. Although available, there will be no audio captured from these cameras at present.

All recorded images are saved on the camera SIM card which then deletes earlier images on a rolling basis once the card is at full capacity.
